

Fall is in the air and crops are starting to turn colors.
There was no precipitation recorded at either farm for the week.

Activities:

Dan met with Wyffel's managers to set up Field Day on September 13th. Ag students from area schools will be here in the morning and producers will have a meeting in the evening.
John got 2 bulk bin augers ordered for the feedlot in preparation for upcoming FIMS project
Randy got hay put down at Armstrong
Getting bids on replacing curtain in cattle barn
Alison Robertson was here evaluating fungicide trials
Jim scouted his On Farm studies in the area
Getting bids on removing old windbreak at farmstead
Dan changed out corn rootworm traps
Randy plowed oat study of Dr. Delate's in preparation of planting cover crop
Preparation for soil judging contest on September 26th---contacted NRCS to locate pits and made contact for pits to be dug when time gets closer
Garden produce is still being harvested
Working on bid to get some tiling done on North 80?
