

It has been warm, but crops still look good in the area. Could sure use some rain, especially after what the weather sounds like for this week.

Armstrong received .15 of an inch precipitation and Neely-Kinyon received .09 of an inch for the week

Activities:

Jim continues to get some more On Farm projects in

Randy continues to do some picking of produce in the garden along with help from Master Gardeners

John got the hay hauled in and worked on mowing lanes

John and I weighed McNay fall calves off pasture and got them shipped to Allee later in the week

John and I got other bunks removed in pen 3 and did some clean up

Guys worked on and serviced some machinery at both farms this week

Continue to work on FIMS project with Shawn and Garland—ordered lumber and picked up other supplies

Monitoring fat cattle closely during this heat spell
