

Temperatures finally moderated a little this past week to make more comfortable to be out and about. We could sure use a nice soaking rain here. Crops are still looking good, but could sure use a drink.

Armstrong received .42 of an inch precipitation and Neely-Kinyon received very little if any (Weather station is down and people have been contacted about the issue)

Activities:

Shawn, John and myself spent quite a lot of time working on FIMS project in cattle barn—
electrician also got a good start

Guys did quite a lot of spraying around buildings, fence lines and field edges

Randy is harvesting produce in the garden along with Master Gardeners help

Shipped 84 McNay spring steers to Tyson

Clean feedlot pens

Jim and Randy volunteered on behalf of the farms at the Cass County Fair food stand

Started preparing for the Garden Field Day on 8/1/17

Randy took oat samples to Ames to be thrashed there

Jim did a few more On Farm trials
