

Another good week of harvest and we can see the end, although a lot of fall activities need to be done in preparation for next season.

There was no precipitation recorded at either farm for the week.

Activities:

Harvest—Corn

Both STRIPS bowls

Standability-3rd harvest date

LTAR plots at Neely-Kinyon

Bulk at Armstrong

Bulk at Neely-Kinyon

Harvest—Soybeans

Soybean Breeders here—will finish up this week

Jim got several more On Farm plots out

Baled cornstalk bales

Preparation for cattle to arrive this week

With harvest getting close to being done, we will be doing some fertilization and tillage on our long term plots this week. Also hope to get the biochar forage plots harvested.

Cattle from McNay will be arriving this week, getting the bull calves started and ready for FIMS trial to start in December.
